

# Russ, add your apps to iPhone

Open one app address below. Sign in if asked. Then follow the pictures.

## Club Operations

Run the club

[odderclub.org/admin](https://odderclub.org/admin)

## Beach Check-In

Waivers + attendance

[odderclub.org/checkin](https://odderclub.org/checkin)

## Member Beach App

Breathwork + timers

[odderclub.org/breathe](https://odderclub.org/breathe)

These pictures show the public club site. Repeat for each app above.

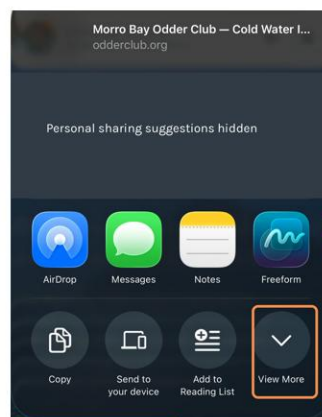

### 1 Tap Share

Tap the square with the upward arrow beside the web address.

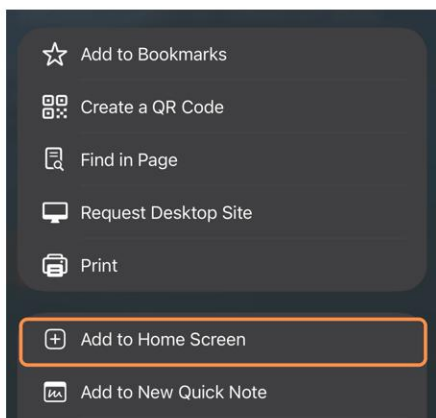

### 2 Open the full menu

Swipe the Share panel up. Tap View More if it appears.

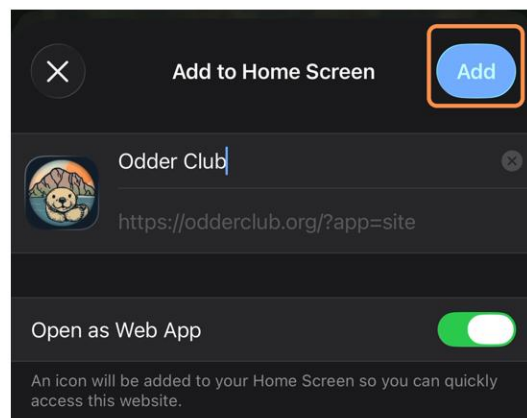

### 3 Add to Home Screen

Scroll down past the sharing options, then tap Add to Home Screen.

### 4 Tap Add

Leave Open as Web App on. Tap Add at the top, then open your new icon.

### Can't find it?

Opened from WhatsApp? Copy the address, open Safari, and paste it there. Missing Add to Home Screen? Scroll farther down or check Edit Actions.
